<b>Each meeting:</b>	4 lessons (4 x 45 minutes). One break

### These very intensive classes will

- follow the well-known KISS Concept® - Danish for well-educated foreigners
- have extra focus on pronunciation - taught with the special KISS principles
- end with a KISS certificate after each level - when finished to our satisfaction
- lead up to (after level 10/Module 5) the official exam **Prøve i Dansk 3 (PD3)** - grade average generally about 10 - by far the highest in the country.

### Practical information

**Interview:** We may want to invite you in for a placement interview. However, your pronunciation has to be extremely good to skip our level 1.

**Payment:** Participants register and pay for one level (3 weeks) at a time. One KISS level is ½ Module, so one Module is only 6 weeks with KISS.

**Next level:** Continuing to the next level is on the condition that the previous level is finished satisfactorily. Oral and written tests each meeting. There are, usually, no breaks between levels.

**Whole program:** KISS levels 1-10 (= Module 1-5) take netto 7½ months in all estimated by the Ministry of Integration to take 30 months in the public system – 4 times as long.

**Preparation:** About 3 hours of homework before each meeting.

## General information

**Results:** KISS is now a private company after having for many years been an extremely successful part of the public system (as a *sprogcenter* offering free Danish lessons). Shortest program, best grades at the official examinations, highest attendance rate, etc., etc. in the country. We have a real teaching system and we use our own unique models and techniques for the pronunciation – with results unmatched by any other school.

**Investment:** Our price equals the price a *kommune* generally pays per Module to the local language school (*sprogcenter*).

- KISS students just get there 4 times as quickly and with a better pronunciation.

If you can afford only the first one or two levels or Modules at KISS, this will still be an invaluable help to get the right language habits installed from the beginning – and for getting a good Danish in the long run, this really makes all the difference.

The content of the KISS levels (with 2 levels to a Module) follows the public *sprogcenter* module system.

**Sponsors:** You may want to ask your *kommune* (municipality) or *jobcenter* to help you with the payment. We'll be happy to assist you in applying.

Good Danish could help you turn into a good tax-payer, and it may be in the interest of your *kommune* for this to happen as quickly as possible.

If you are an employee, your company may want to pay for you. They will most certainly get a happier employee out of this; one who feels more included both privately and at the work-place and who is, therefore, more inclined to stay with the company. That makes paying for KISS a very good investment for your company.
