

ONLINE COURSES

At KISS we are not planning to offer online Danish courses.

In online courses, we would not be able to keep up our usual standards.

Usually, our students are able to say "Rødgrød med fløde" absolutely perfectly half way through Module 1 / half way through A1. This cannot be achieved online.

Besides, the personal touch and the social aspect are both very important elements in courses as intensive as ours, also for motivation.

It is not possible to teach a group a good Danish pronunciation online – and believe me: If we cannot do it, nobody can.

In these corona times, students will, therefore, be better served if we postpone classes for some weeks, if necessary.

Students do, however, get sound files, etc. to support their homework.
