

KISS IS THE BEST SCHOOL – WHY?

KISS is the best Danish school in the country and has been the best *for many years*. This is because The KISS Concept takes into consideration all important aspects of your learning:

- ✓ We have a regular *teaching system* with a *method* that works – with the same clear and detailed procedures followed in each meeting.
- ✓ Students – as well as teachers – always know exactly what is expected of them. *Tests and exercises* are always done in the same way and in the same order. In class, there is no contemplation and *waste of time*. In terms of *homework*, you will always know exactly what to do and how to do it.
- ✓ KISS has always had the *shortest course program*, the highest *grade average* at the official exams (PD3 and Studieprøven) and the highest *attendance rate* – out of the about 50 language schools (*sprogcentre*) in Denmark.
- ✓ KISS is the only school that has ever been able to teach *Danish pronunciation* successfully. This is because we have a totally different approach to pronunciation with our own models, descriptions and techniques.
- ✓ KISS has as the only language school in Denmark had certified *quality control* – ISO–9001 for ten years – focusing on all relevant aspects of your learning of the Danish language.
- ✓ Your progress will be monitored closely; also by oral and written test each meeting. If a student for one reason or another is not able to keep up, he or she will be asked to repeat the level. Fast progression requires reasonably *homogenous groups*.
- ✓ *The teaching material* is developed at KISS especially for our teaching system.
- ✓ Our *teachers* are all academics. They are, however, first of all selected because of personality.
- ✓ The KISS Danish course is *not for everybody*, because the course is quite *demanding*. This is because good Danish must be learned quickly. Otherwise, being in the country one quickly picks up wrong *language habits*, especially in terms of pronunciation. Demanding, yes, but your motivation will be kept up by your feeling of progress!
